

CEDERBERG BREWERY

SINCE 2009

Brewing History:

Dwarsrivier is also home to the family owned Sanddrif Holiday resort offering self-catering accommodation, assorted outdoor activities and peace and quiet all year round.

Combining European inspiration with South African innovation, we set out with a simple goal: to brew the beers we wanted to drink. We started small, with a homebrew system, a love for craft beer, plenty of passion and determination. The result? Hand crafted natural beer, made with the purest ingredients. Beers that can stand on taste alone.

Vision and Mission

We believe that making beer is like everything in life: you get out what you put in. And let's face it: beer is mostly water so brewing with the purest water we can find is a no-brainer. We only use spring water, flowing from the surrounding mountains and drawn through many layers of sandstone, naturally filtering impurities and gathering trace minerals en route; the result being crystal clear mountain water, perfect for brewing legendary beer that consistently delivers our signature taste.

Cederberg Blonde Ale: This is a refreshing and fruity ale with an elegant roasty character, medium-bodied with a sweet malty finish. Its unmatched drinkability makes it a beer anyone can fall in love with.
